LTSS Trust Agency Administrative Expenses

Executive Summary

Statutory Requirement

Per Chapter 50B.04.030 (5) RCW, the Long-Term Services and Supports Trust Commission shall monitor agency administrative expenses over time. The Commission must annually report to the Governor and the fiscal committees of the Legislature on agency spending for administrative expenses and anticipated administrative expenses as the program shifts into different phases of implementation and operation.

Background

The Long-Term Services and Supports Trust Act was created through the passage of SSB 1087 in April of 2019 and is now known as WA Cares Fund. The Department of Social and Health Services (DSHS), the Office of the State Actuary (OSA), the Employment Security Department (ESD), and the Health Care Authority (HCA) each have distinct responsibilities in the implementation and administration of the WA Cares Fund program. DSHS, OSA, ESD and HCA will collaborate to realize program efficiencies and minimize administrative expenses.

The LTSS Trust Agency Administrative Expenses Report, due to the Legislature on November 15, 2021, provides information on the DSHS, OSA, ESD and HCA administrative expenses for the 2019-21 biennium and the anticipated administrative expenses for the agencies in the 2021-23 biennium.

After startup, from 2025 onward, the target is to keep the administrative load for the program under 7%. This is the sum of 3.5% of the premiums collected and 3.5% of benefits paid. During the startup phase, the WA Cares Fund is making strategic investments to meet requirements identified in RCW 50B. These include technology development; LTSS Trust Commission support, program design, and policy development; and communications and outreach.

The November 15, 2025, report must include recommendations for a method of calculating future agency administrative expenses to limit administrative expenses while providing sufficient funds to adequately operate the WA Cares Fund program.

The Secretary of the Department of Social and Health Services, the Commissioner of the Employment Security Department, and the Director of the Health Care Authority may advise the Commission on the reports prepared but must recuse themselves from the Commission's process for review, approval, and submission to the Legislature.

WA Cares Fund Funding

Per Chapter 50B.04.100 RCW, expenditures from the LTSS Trust account may be used for the administrative activities of the Department of Social and Health Services, the Employment Security Department, and the Health Care Authority. The account is subject to the allotment procedures under chapter 43.88 RCW. An appropriation is required for administrative expenses.

The LTSS Trust account has been established and the Employment Security Department will deposit premiums collected from employees into the account. Employers start collecting premiums from their employees in January 2022. Until the account is funded, administrative expenses will be covered by a loan from the state general fund. The general fund will be reimbursed from the LTSS Trust account by June 30, 2022, with interest.
